

A photograph of an offshore wind farm at sea. Several wind turbines are visible, with their towers and nacelles extending from the water. The sky is a clear, light blue, and the water is a deep blue with gentle ripples. The wind turbines are silhouetted against the sky, and their reflections are visible in the water.

PRODUCT. IT HAS SEVERAL FILTERS ORGANISED BY TAB
FOR QUICKLY IDENTIFYING YOUR COMPANIES:**

1. PORTFOLIO MANAGEMENT

By default, the Portfolio lists the last 100 companies on which an action or update has been made.

a. Search Criteria filters

You can use the Search Criteria filters to optimise the view of your Portfolio. The functionality scans your entire risk Portfolio, and retrieves a maximum of 100 results listed in chronological order from the most recent date to the oldest.

The screenshot shows the search criteria form with three sections: 'COMPANY' (1), 'PRODUCT' (2), and 'CUSTOMISED FIELDS' (3). The 'COMPANY' section includes 'Company name' (Coca), 'Favorite companies' (checkbox), and 'Country' (United States). The 'PRODUCT' section includes 'EasyNumber' and 'CRS Number'. The 'CUSTOMISED FIELDS' section includes 'Legal identifier' (D-U-N-S-B) and a search button.

The search criteria are divided into 3 parts: (i) criteria related to the company, (ii) the criteria related to the Coface product and (iii) the customised fields.

You can reset your search at any time by clicking on the blue button underneath the Search Criteria.

■ By Company

You can search a specific customer in your risk Portfolio via its business name. Using only a part of the company's name is possible.

■ By Country

The Portfolio displays all companies in all countries by default. The dropdown list contains all the countries where you have requested a product; to view a particular country, select it from the dropdown list.

■ By Legal Identifier

■ By Product

You can filter the risk Portfolio by a specific Coface product. To do so, choose a Coface product from the dropdown list. By default, the list displays all Coface's products (even if they are not on your contract). You may want to differentiate **Insurance Product** from **Information Product** – in this case, tick the appropriate box.

■ By Decision Amount

You can filter a minimum and maximum decision amount (in thousands USD).

■ By Status

You can display the companies filtered on product status. The type of status will depend on the Coface product:

| • Being withdrawn | • Refused |

c. List of Companies

The list of companies is displayed in a table with columns that vary according to the view (Overdues versus Risk)

The number of companies displayed per page can be customised in the Options menu.

Each company is displayed on one line, and can have one or more products attached. Wherever you click on the line of the company, it will lead you to the company's details.

By default, the risk Portfolio is displayed in chronological order from the most recent to the oldest.

The companies listed correspond to the companies that have been updated recently (update date).

The list cannot display more than 100 companies.

ADVANCED SEARCH FUNCTIONALITY - SEARCH STRATEGIES

To show the secondary addresses in the list of results, click on the checkbox to deactivate the option Main Establishment only.

■ Companies List Layout

By default, the following columns are displayed:

- On the left-hand side, you find the information on your customer: company's name, address, country.
- On the right-hand side, you find the information about the products ordered.

Colour code lines differentiate the Coface products:

Credit Insurance Products

Information Service Products

Overdue Products

Once the product on the selected company is ordered:

- The company, along with the ordered product, will appear in your Portfolio.
- A synthesis view of the credit decision will appear in the Company Details view.

- 1 **This view can be expanded by clicking on Display:**
you will get additional information on the decision. .
- 2 **Some additional action boxes for the credit decision item**
are available that help manage your product.

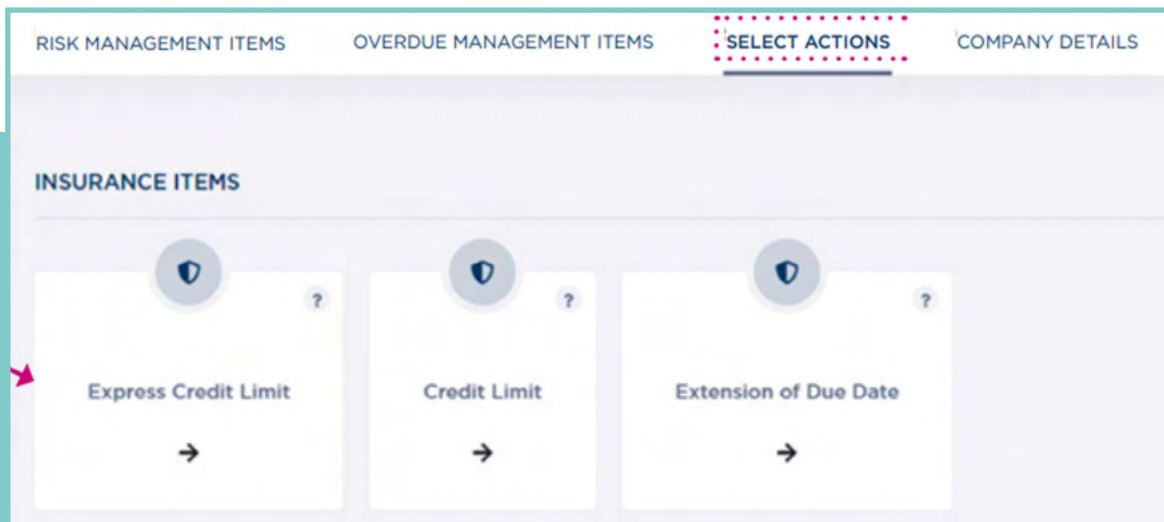

- 3 **The history of the cover for a company can be accessed from the History button:**
the new page lists any previous credit limits or @rating limits granted.

1. CREDIT LIMIT

a. Initial request

To order a credit limit on a company:

on the Company Details view go to the **Select Actions** tab and click on the required product:

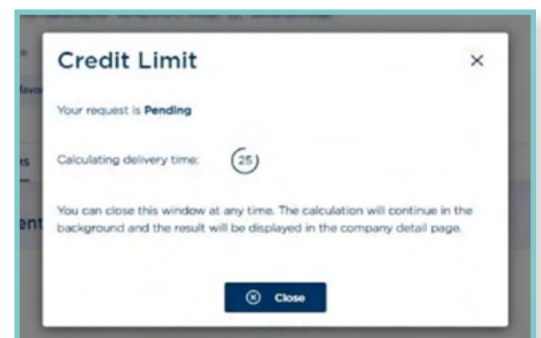

The following form will appear.

- 1 The Amount is the only information required to submit your request.
- 2 If you want to add a guarantor, you must fill in its EasyNumber. You may use the Search function to help you find the Guarantor EasyNumber.
- 3 Click on Confirm to submit your request.

As soon as your credit limit request is submitted, it is sent to the Coface Risk Underwriting Department, who will analyse the request. The decision might be immediate (your Portfolio view is automatically updated with Coface's decision) or Pending, meaning you will receive a notification as soon as the request is analysed.

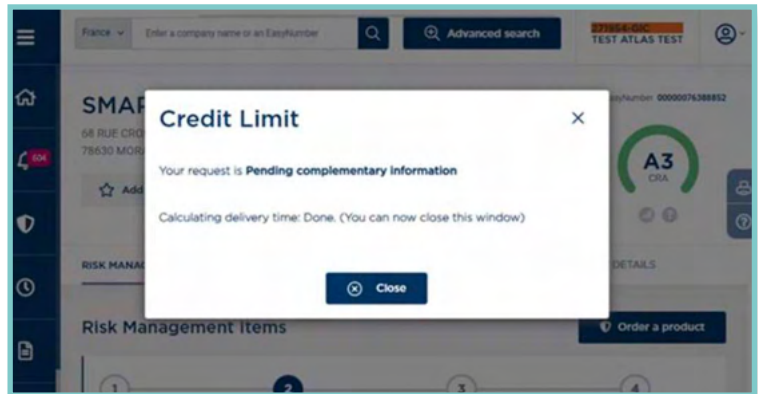

Whenever one of your credit limit requests is Pending, either awaiting a risk underwriting decision or additional information, CofaNet will display a countdown timer in the window, meaning the response time is in the process of being calculated using the information available to us at the time of your request.

The pop-up window can be closed at any time during the calculation process if you do not want to wait. The countdown will then continue in the background while you navigate in the different sections of CofaNet.

Once the estimated response time is ready, a Done message will appear in the **pop-up window**.

By closing the window, you will be able to see the precise status of your request, as well as its related estimated response time, directly in the Company Details page.

a. Modifying or transforming your request

Once your initial request has been submitted, different actions on this request are available:

CREDIT LIMITS

✓ Transform	Transform into an @rating limit.
✓ Cancel	To cancel the limit. <i>NB: once deleted, the company stays in your Portfolio for 2 years. This means you can notify any potential overdue account on the company that occurs after deleting the limit.</i>
✓ Modify	To request a higher or lower amount.

Some credit decisions are subject to guarantors or an underwriter's comments.

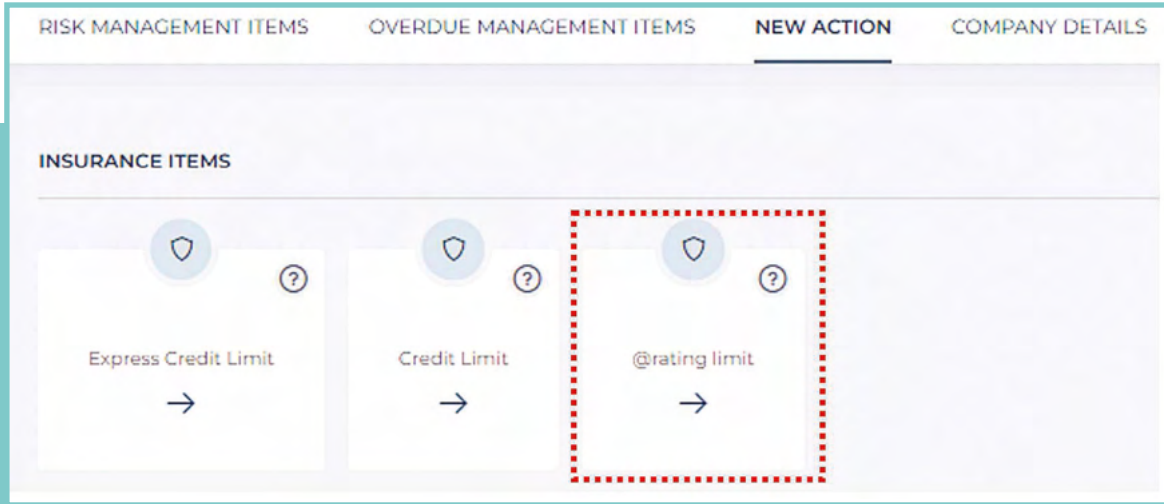

Some credit decisions can have a temporary amount or an end date.

Display full details on credit decisions to have all information.

2. @RATING LIMIT

a. Initial request

To request a @rating limit on a company: on the Company Details view go to the **Select Actions** box and click on the @rating limit product.

The following pop-up appears.

Click on **Yes** to confirm your request. Your Portfolio is automatically updated, as the decision is always immediate.

b. Modifying or transforming your request

Once your initial request has been submitted, different actions on this request are available.

#RATING LIMIT

TRANSFORM	If the amount is not sufficient and you need a higher amount of cover, you can request a credit limit.
DELETE	To cancel your @rating limit <i>NB: once deleted, the company stays in the Portfolio for 2 years. This means you can notify any potential overdue account on the company, even after the deletion of the @rating limit.</i>

When a credit limit decision has been taken, it will always override the @rating Credit Opinion.

3. TOPLINER LIMIT

The TopLiner limit is designed to provide additional cover on companies in case of a reduction, refusal or cancellation of a credit limit decision.

Its main features are:

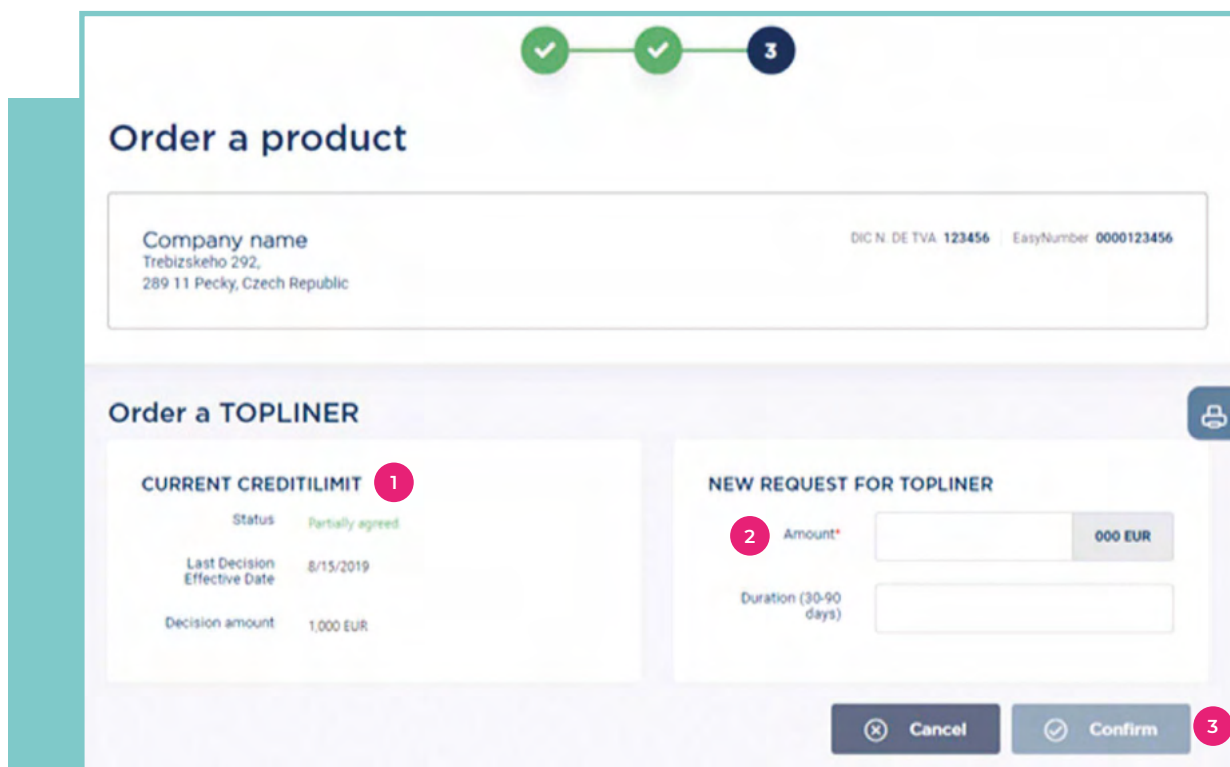

- Additional guarantees attached to the standard policy
- Classic credit limit parameters
- Flexibility on amount and duration
- Expert pricing revealing the quality of risk
- Online purchase and delivery through CofaNet Essentials

If the TopLiner product is available for your contract, the button to order a TopLiner limit will be displayed in the catalogue of product / actions.

The TopLiner option is available when a credit limit on a company / debtor is refused, cancelled or reduced if there is no overdue account of more than 60 days. The elementary / initial credit limit is independent of the TopLiner product. However, the elementary / initial credit limit cannot be transformed into a @rating limit when a TopLiner Limit is active.

The TopLiner limit form contains:

- 1 A reminder of the characteristics of the current credit limit, with its status, decision date, and decision amount.
- 2 In the field New Request for TopLiner you should fill-in:
 - The Amount requested that should correspond to the total Outstanding Amount required
 - The Duration period (any period between 30 and 90 days).
- 3 Click on Confirm to submit your request.

The submission of the order triggers validation on the complementary amount and duration text. The decision can then be denied or agreed.

If the TopLiner cover is agreed, a pop-up appears with the requested amount, the validity period, the agreed amount with currency and the invoice amount of the TopLiner limit with the invoiced currency.

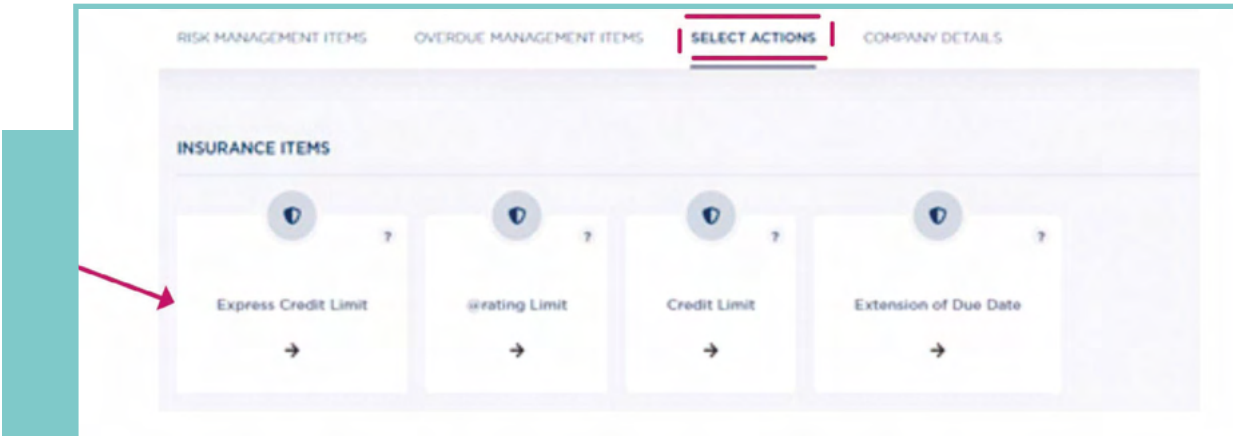

- 4 **Refused:** the refusal is saved.
- 5 **New simulation:** refusal is saved, the previously entered values are retained and you can request a new simulation.
- 6 **Buy** – your order is saved.

The decision will appear in the Imminent End Date Portfolio.

30 days before the end of TopLiner coverage period, the decision will be flagged with the **Imminent End Date** icon, and five days before the end you will receive a notification.

4. EXPRESS CREDIT LIMIT

When you have ordered a monitored DRA, you will receive any updates to the DRA through the Notification Centre.

2. @RATING CREDIT OPINION CHECK / MONITORED

You can request a @rating Credit Opinion on a company.

From the Company Details view go to the Select Actions box and click on the product required.

The following pop-up appears. Click to confirm your request. In the Portfolio, the @rating Credit Opinion will be displayed.

3. CUSTOMISED CREDIT OPINION (CCO)

You can request a Customised Credit Opinion on a company.

From the Company Details view go to the Select Actions box and click on the product required.

The Customised Credit Opinion is monitored only in the case that the decision is decreased. As soon as your CCO request is submitted, it is sent to the Coface Risk Underwriting Department who will analyse the request. The decision might be immediate (your Portfolio view is automatically updated with Coface's decision) or Pending, meaning you will receive a notification as soon as the request is analysed. Whenever one of your credit limit requests is Pending, either awaiting a risk underwriting decision or additional information, CofaNet will display a countdown timer in the window, meaning the calculation of the response time is in progress, using the information available to us.

The pop-up window can be closed at any

time during the calculation process, if you do not wish to wait. The countdown will then continue in the background while you navigate in different sections of CofaNet.

Once the estimated response time is ready, a **Done** message will appear in the pop-up.

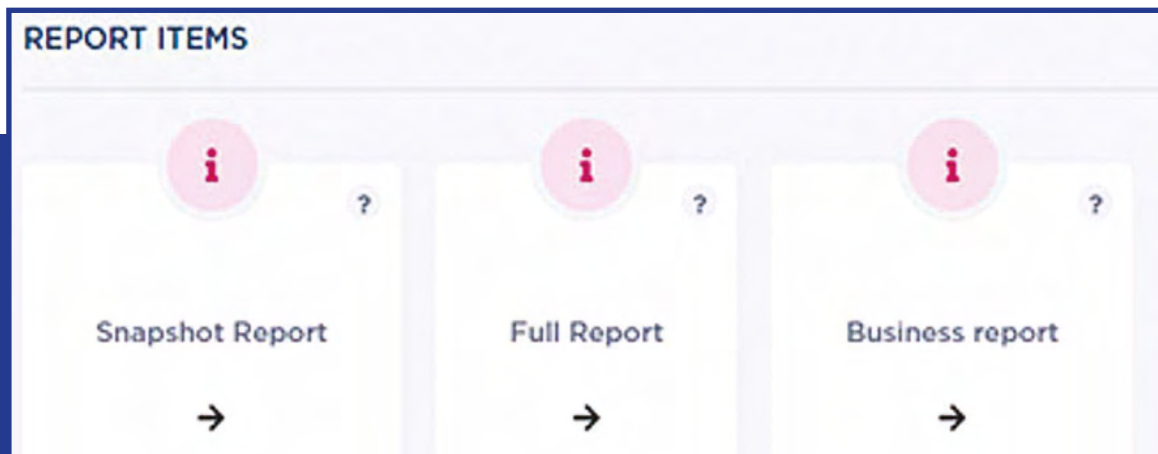

By closing the window, you will be able to see the precise status of your request, as well as its related estimated response time, directly on the Company Details page.

4. REPORTS

You can request a **@rating Credit Opinion on a company**.

From the Company Details view go to the Select Actions box and click on the product required.

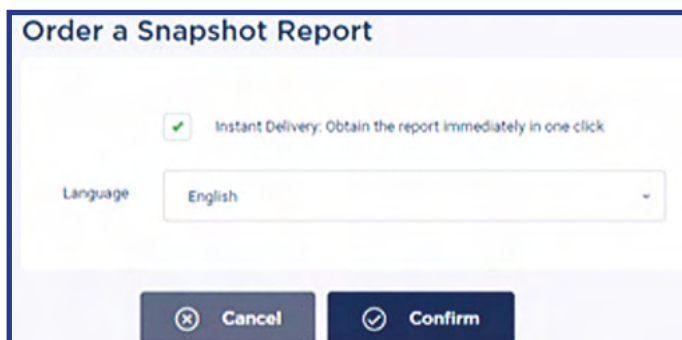

Depending on your contract, and the country of the customer, you may have access to three types of Report: Snapshot, Full (new investigation or instant delivery) or Business Report.

a. Snapshot Report

A Snapshot Report contains basic business information data. It is available in most cases with instant online delivery and for a few cases with a delivery delay depending on the connections with the Coface partners.

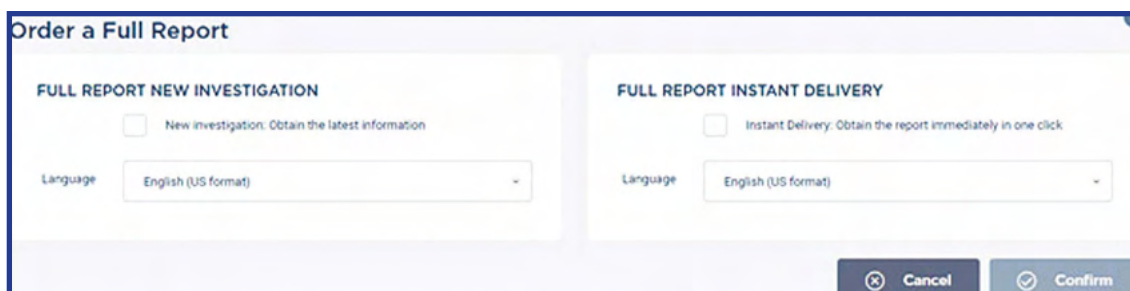

You can choose the language you want the **Snapshot Report** to be displayed in: English, French, German or Spanish.

b. Full Report

Full Report provides comprehensive and extensive information for in-depth analysis of the company's credit risk. You have the choice of 2 options by clicking on the green buttons:

- Order a Full Report – Instant Delivery
- Order a Full Report – New Investigation

The difference is that with the first option, the Full Report is delivered instantly online. In this case, you must look at the **Last Update Date** to evaluate whether the information is recent enough to be worth ordering.

If you choose the second option, it means you have estimated that the Full Report needs to be refreshed. By ordering this new investigation, you will get an updated Full Report within a few days.

The reports are the same in terms of the format of the content, updated content and with a new update date with a new investigation. In addition, the format is standardised to facilitate reading and comparisons between several Full Reports.

In both cases, you can choose the language you want the report to be displayed: English, French, German or Spanish.

5. BUSINESS REPORT

On this page you can order a Business Report which is a Credit Alliance Business Report (CABR). It provides valuable business and credit information on companies, allowing you to evaluate potential new customers, business partners and suppliers worldwide. If occasionally a company is not on our database, we will undertake a fresh investigation and obtain data to prepare a new report within a few days.

If you click on the green button **Order a Report**, you will receive the file.

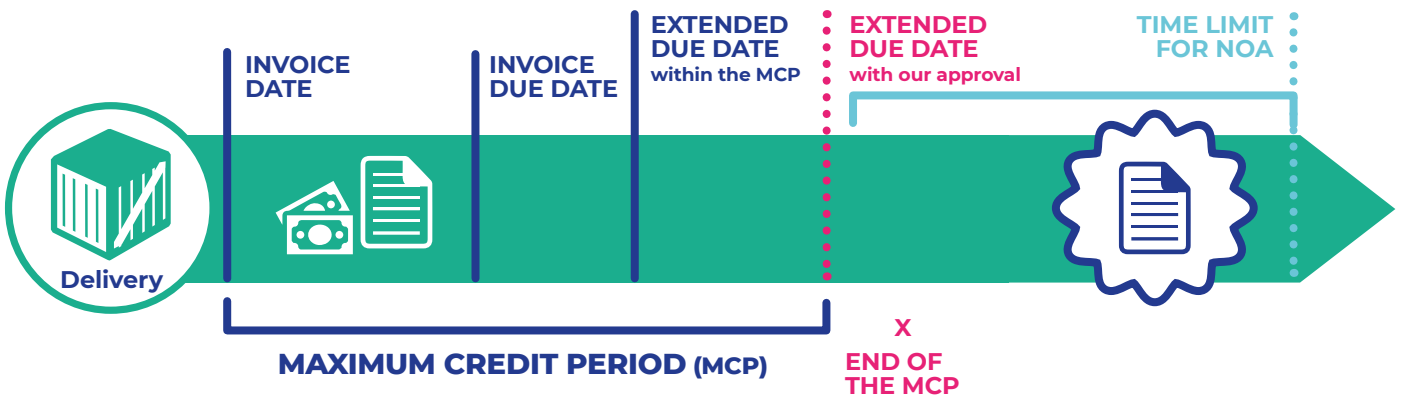

REQUESTING AN EXTENSION OF DUE DATE

AN EXTENSION OF DUE DATE (EDD) IS A REQUEST TO RESCHEDULE THE INITIAL DUE DATE OF INVOICES

- 1 **The Due Date** is the initial date when the Buyer must pay their invoices according to the Sales Contract. It must fall within your **Maximum Credit Period**.
- 2 Within the **Maximum Credit Period**, you can freely grant one or several extensions of the initial Due Date to your Buyer.
- 3 If your client requires an **Extended Due Date** which falls outside the MCP, you must obtain our approval first.

In case of a Cancellation of your credit decision, or if your Buyer is in default, as defined in your contract, you also have to submit a request of Extension of Due Date even if the extended due date falls within the Maximum Credit Period.

When a request for an EDD is created (pending), the request is submitted to a risk underwriter.

The risk underwriter will evaluate the EDD request

The EDD will remain with a pending status in CofaNet Essentials (unless it has been cancelled) until the risk underwriter has taken its decision on the request

The status of the decision for the risk underwriter can be either ACCEPTED or REFUSED

Active EDDs can be modified.

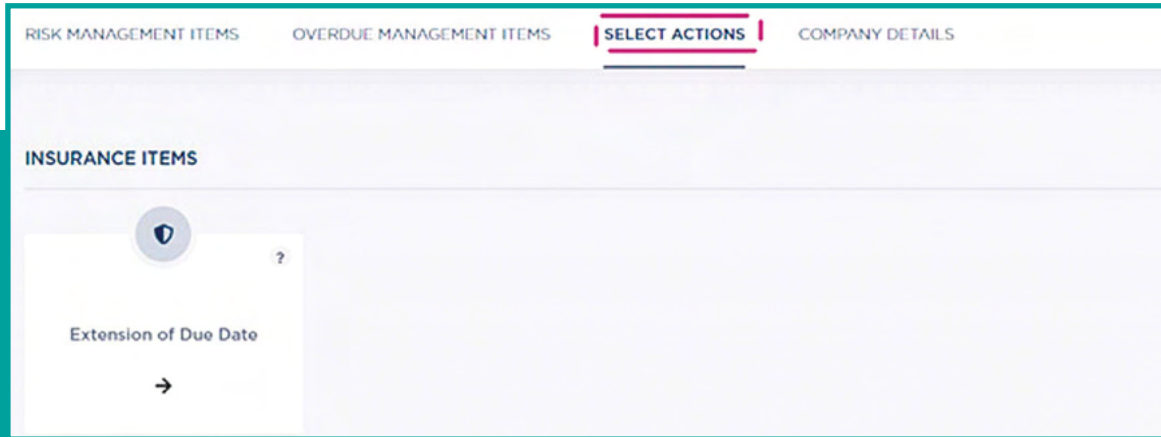

Only pending EDDs (meaning no decision from the Risk Underwriting Department yet) can be cancelled.

Only one EDD may be granted to a buyer. If an EDD already exists on a buyer within your Portfolio, a new EDD cannot be created.

In case of an EDD after the NOA, the request has to be made to your claim contact directly by email and out of CofaNet.

1. CREATING AN EDD

To create an EDD, you should select the item in the Select Action Box in the Company Details view.

The following form appears. It is divided into three parts:

1 EDD details:

The section displays all information about the person in your company who is in charge of requesting the EDD. The contact details may be modified by clicking on the Modify button (by default the contact is the CofaNet user contact). You should select the reason of non-payment. You can also change the currency; it will be applied to all the form.

2 Deliveries invoiced:

It allows you to identify multiple invoices that will be included in the Extension of Due Date request. To communicate invoices associated to an EDD an import function is available.

All fields are mandatory.

3 Requested payment Plan:

This allows the creation of multiple payment dates against the total amount of unpaid invoices. The schedule can be created by completing the following two fields:

- New due date - proposed date set by the customer
- Amount: proposed amount set by the customer.

NB: the total amount of Deliveries invoiced has to be equal to the Total amount of Request Payment Plan.

You can then click on Submit to send your request to the Coface Risk Underwriting Department.

2. MODIFYING AN EDD

To modify an EDD, you must select the EDD previously requested on the company. You cannot modify an EDD with a pending status.

3. ANSWER FROM UNDERWRITERS

An EDD can either be agreed or refused.

If it is agreed, the payment plan you propose can

- either be accepted as such,
- or our underwriters may suggest a different plan to the one you proposed. If the payment plan you propose is entirely validated by the risk underwriter, this payment plan is repeated in the Company Details screen.

If the status is refused, the EDD is not valid.

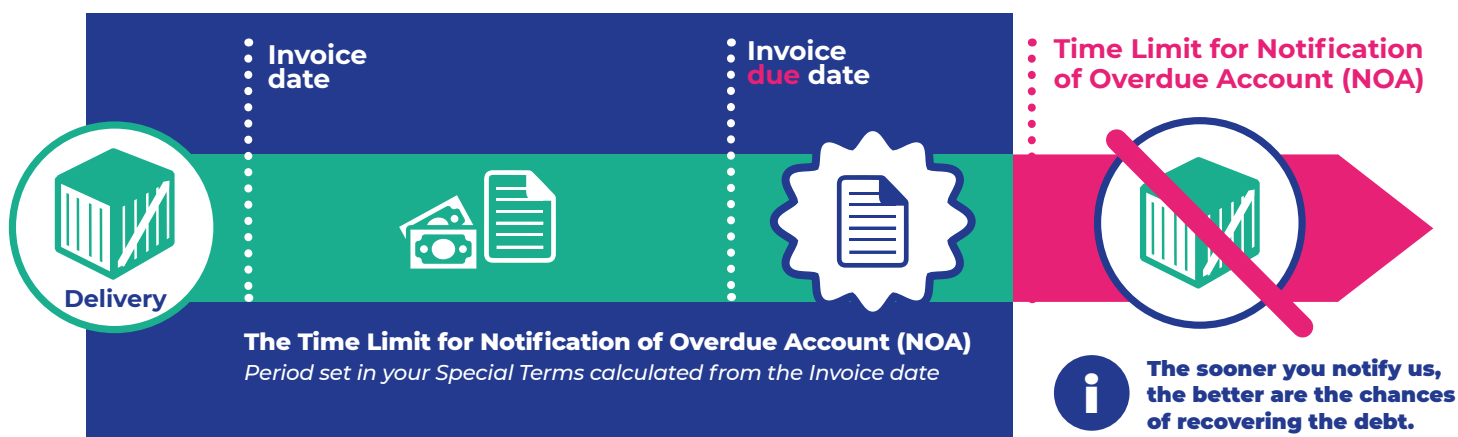

In case of EDD, whatever the answer from underwriters, the Notification of Overdue Account time limit is impacted.

SUBMITTING A NOTIFICATION OF OVERDUE ACCOUNT

IF YOUR INVOICE BECOMES OVERDUE, YOU CAN SUBMIT A NOTIFICATION OF OVERDUE ACCOUNT. COFACE WILL THEN TAKE OVER THE COLLECTION ACTIONS AND BEGIN THE INDEMNIFICATION PROCESS.

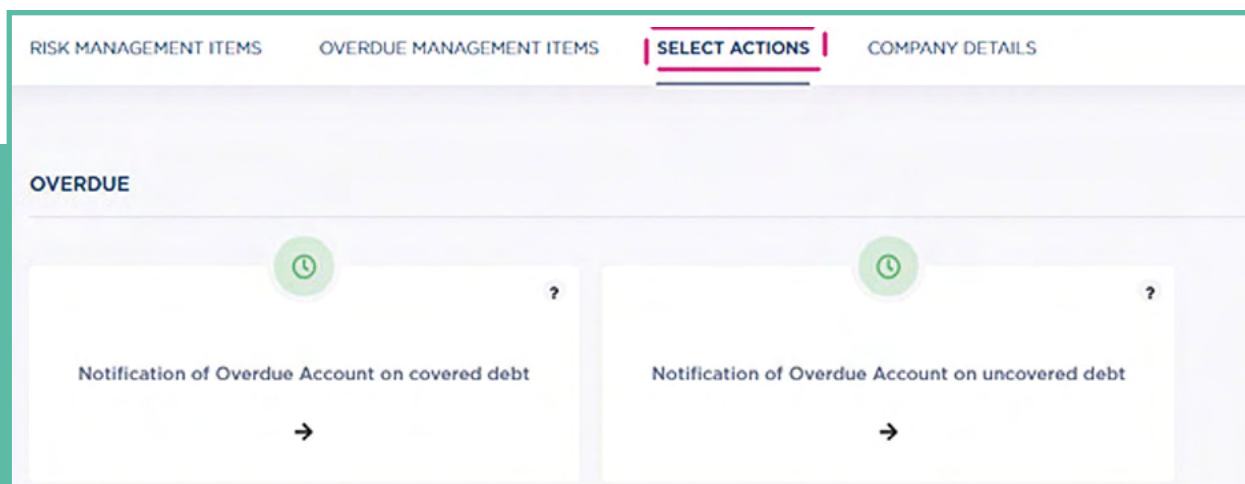

Depending on your contract, the request for intervention may be optional.

For the Globalliance contract you will need to indicate before the confirmation of the submission whether you want to trigger a recovery action against the buyer/customer.

- You need to submit a Notification of Overdue Account (before a time limit specified in your special terms) when one of your customer/debtors does not pay their invoices partially or totally at due date.
- The form enables you to indicate the invoices unpaid by the customer/debtor.
- A Notification of Overdue Account with a request for intervention triggers a recovery action against the buyer.
- Depending on your contract, you may have the possibility to submit an overdue account online for uncovered debts and benefit from our debt collections services.

In this particular case, you will have the two following actions within the “Select Actions” box.

For a given debtor: only one NOA can have the status “pending” or “rejected”. A new NOA can be created only if all previous NOAs have a final status (closed, cancelled)

1. INITIALISATION OF YOUR NOTIFICATION OF OVERDUE ACCOUNTS ON COVERED DEBTS

You can submit your Notification of Overdue Account on a company.
 From the Company's Detail View go to "Select Actions" Box and click on the product required.
 The following form will be displayed:

- 1 Invoices:**
 You communicate the invoices related to the NOA declaration either using the import function or by adding each unpaid invoice manually.
You should submit: Invoice type, Invoice date, initial invoice due date, net Amount, taxes, currency. All these fields are mandatory.
- 2 Payments input:**
 In a NOA you can communicate partial payments received either using the import function or by adding each invoice manually.
You should mention: Payment type, Invoice reference, Date of payment, Amount, Currency. All these fields are mandatory.
- 3 Comments:**
 You may add a comment about the NOA. This field is optional and limited to 900 characters.
Click on Submit to send the Notification of Overdue Account.
Remark: If you requested intervention, a second page is displayed for you to confirm the request for intervention (RFI) after the NOA submission.

INVOICE DATE CAN BE BEFORE TO THE CURRENT DATE.

The due date cannot be after to the invoice date
 Currency: by default, it is set according to the currency of the contract but you can enter invoices of any other currencies.

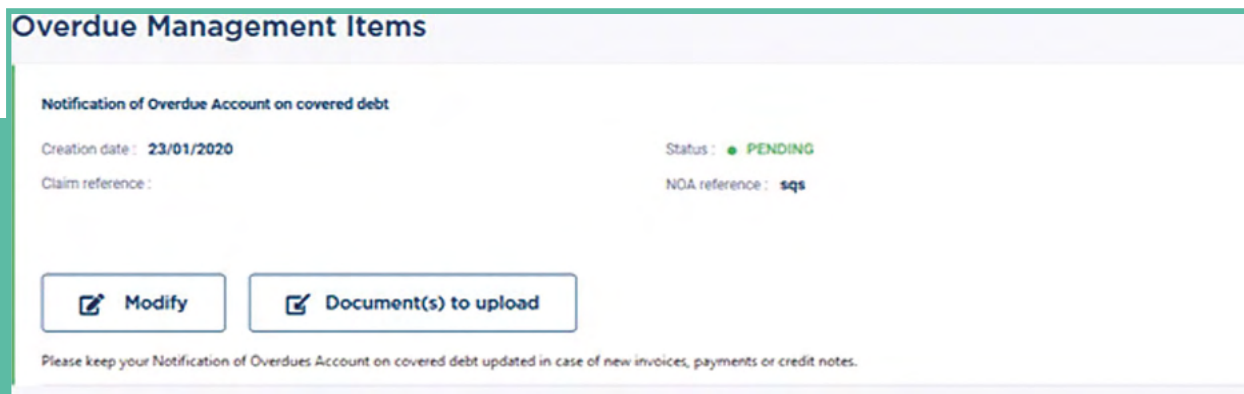

You can tick the appropriate box depending on your need.

This first NOA submitted is named Initial NOA. Once the Initial NOA is created, other NOAs can be created and are named Additional NOAs. As the NOA evolves over time, through additional NOAs you can communicate additional unpaid invoices and / or received payments. The NOA Case is the name for the declared NOAs (initial and additional), displayed in your overdue Portfolio.

2. MODIFYING AN EXISTING NOTIFICATION OF OVERDUE ACCOUNTS ON COVERED DEBTS

To modify an initial or an additional NOA, you must select the debtor on which you posted an NOA, and enter its Company Details view.

The action box Modify enables you to open the existing NOA to modify it

The initial unpaid invoices and/or payments cannot be changed. All the new information completed is identified under **Additional**.

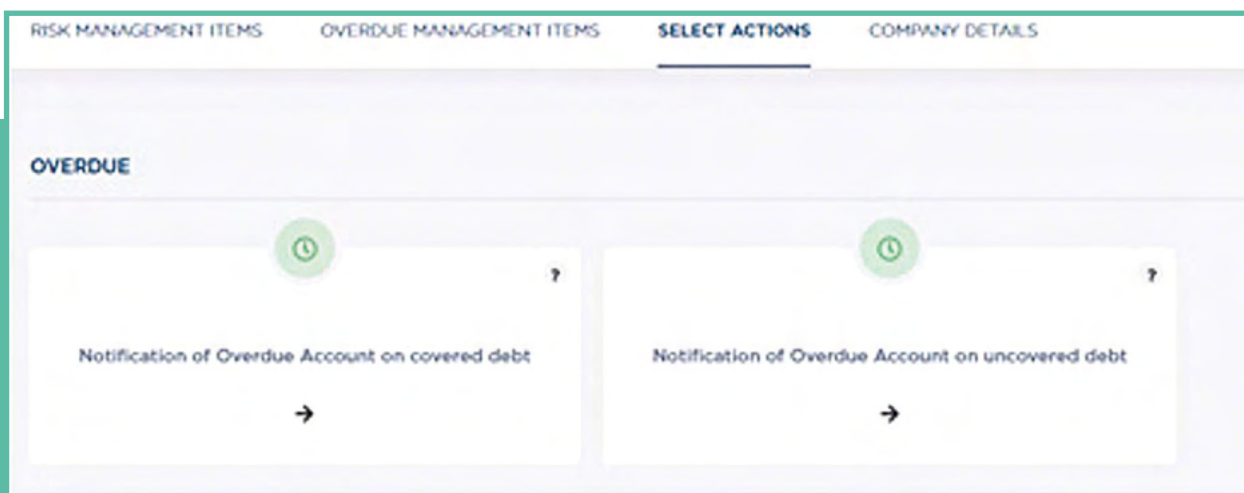

You may modify the contact in charge of the NOA.

You can attach any documents by clicking on **Document(s) to upload**.

Once the document is uploaded it will be listed in Policy / Documents.

3. NOTIFICATION OF OVERDUE ACCOUNTS FOR NON-COVERED DEBTS

If your contract contains the non-covered debts clause, you can declare overdue accounts for the non-covered debts. The same process applies as for covered debts. To submit a NOA on non-covered debts, you must select the appropriate item in the Select Actions box:

The only difference is that you may have to add to your risk Portfolio the debtor first, as he may not be listed. To do add your debtors in your Portfolio, please refer to first section Company Search.

You can see your NOAs through the Overdue Portfolio

SALES DECLARATION

THE DECLARATION OF SALES IS REQUIRED. YOU WILL RECEIVE 3 REMINDERS IN YOUR NOTIFICATION CENTRE TO SUBMIT THE DECLARATION

According to your contractual conditions, the activity notification is based either on:

- Outstanding or sales
- By debtor or by country

The sales declaration section is located within the Policy section.

The only entry point to your sales declaration is the notification received in the Notification Centre.

1. CREATING A DECLARATION

Click on the notification number in the list of notifications in order to access the form.

1 Identification Part:

This section contains the information about the notification and the corresponding contract (by default the contact is the CofaNet user contact)

You may modify the name of your internal contact in charge of the sales declaration, by clicking on the Modify button.

2 Declaration:

The fields of this section can vary from one notification form to the next depending on the contract type. You should declare the turnover achieved with each of your customer / or country.

You can decide to use either:

- the export / import function under an Excel format
- to complete all information online (the form can contain over hundreds of lines that are spread through several pages)

If you do not have any amount to notify, tick the box at the bottom of the page.

You can then either decide to:

- save your declaration (without sending your declaration to Coface): in this case you will be able to modify it before any further action.
- submit your declaration: in this case the form is sent to Coface, and you will be able to modify the data during a maximum of 10 days.

The default currency is the primary currency defined in your contract.

Discretionary amounts: If your contract contains this option, then you will have a separate table to fill-in the related turnover

Discretionary sales are insurable sales to buyers to whom you have granted cover yourself (unnamed buyers) up to a fixed amount (the discretionary zone).

2. LIST OF NOTIFICATIONS

In the Activity Declaration menu you will access a list of notifications already sent, and under creation.

MANAGE CUSTOMISED FIELDS

COFANET ESSENTIALS ALLOWS YOU TO CREATE YOUR OWN FIELDS IN ORDER TO MANAGE YOUR PORTFOLIO USING YOUR OWN REFERENCES / CATEGORY. THESE SPECIFIC FIELDS ARE CALLED CUSTOMISED FIELD, AND CAN BE MANAGED IN MENU POLICY / MANAGE CUSTOMISED FIELDS PORTFOLIO. YOU CAN USE THE STANDARD CUSTOMISED FIELD PROPOSED BY COFANET, OR CREATE NEW ONES ACCORDING TO YOUR OWN REQUIREMENTS, AND UPDATE THE COMPANIES OF YOUR PORTFOLIO WITH THEM.

The screenshot displays the 'Manage customised fields' interface in CofaNet Essentials. The sidebar on the left contains navigation items: NOTIFICATIONS (203), RISKS, OVERDUE, POLICY, Contract details, **Manage customised fields**, and TOOLS. The main content area is titled 'CUSTOMISED FIELDS PORTFOLIO' and includes a search criteria section with a 'Company' input field. 1. CREATION OF CUSTOMISED USER FIELDS

CofaNet Essentials allows you to manage up to 8 Customised User fields.

By clicking on **Manage Customised Fields** the different **Customised User fields** will be displayed.

By default, CofaNet Essentials proposes 3 default fields which are **Customer Reference**, **Outstanding Amount**, and **Internal Credit limit**.

These 3 user fields cannot be modified or deleted, but it is not mandatory to fill them.

The screenshot shows the 'MANAGE CUSTOMISED FIELDS' page with a 'Default fields' table. The table has three columns: '#', 'Field name', and 'Type'. It lists three default fields: 1. Customer reference (Text), 2. Outstanding Amou... (Numerical), and 3. Internal credit limit (Numerical). A '+ Create customised fields' button is visible at the top left.

#	Field name	Type
1	Customer reference	Text
2	Outstanding Amou...	Numerical
3	Internal credit limit	Numerical

In addition to those 3, you can create 5 more **Customised Fields** according to your needs.

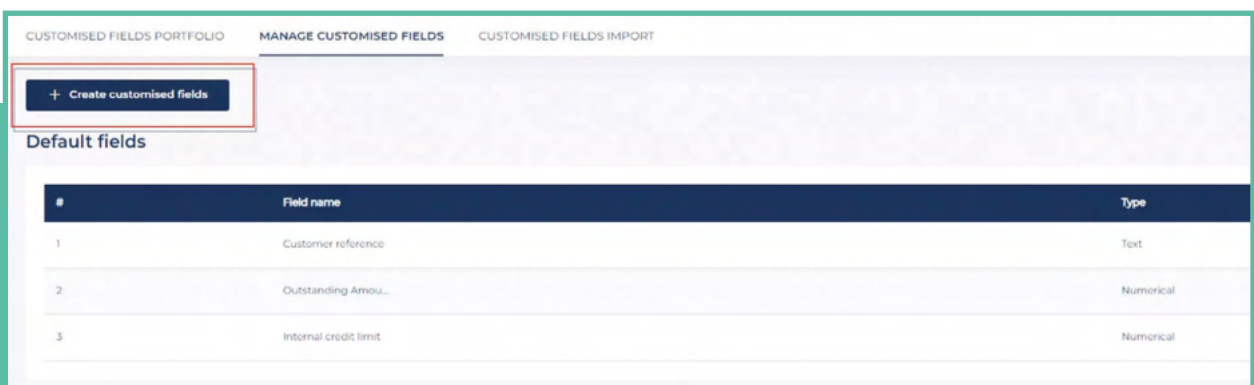

The screenshot shows the 'Customised fields' page with a table listing 5 additional fields. Each row includes a '#', 'Field name', 'Type', and two buttons: 'Modify' and 'Delete customised fields'.

#	Field name	Type	Modify	Delete customised fields
4	NOM CEDANT	Text	Modify	Delete customised fields
5	PRUEBA	Text	Modify	Delete customised fields

1. PRODUCTS AND ACTIONS MANAGED BY THE BULK ORDERS

a. Products

The products that can be managed by the Bulk Orders are as follows:

- Credit Limits
- Customised Credit Opinions
- @rating Credit Opinions without monitoring
- @rating Credit Opinions with monitoring
- @rating Limits
- DRA without monitoring
- DRA with monitoring

Each product has specific actions. For example, it is possible to stop the monitoring for a @rating Credit Opinion or to cancel a credit limit.

It is also possible to update the Customer References or the Outstanding Amounts of an existing client. This option is described later in the guide.

B. Actions

There are 4 actions possible: Order, Cancel, Update and Stop.

Each action can apply to several products depending on the actions allowed.

The table below summarises the products and actions available:

PRODUCT	ORDER	CANCEL	UPDATE	STOP	COMMENTS
Credit Limit	●	●	●		The update is done on the amount
Customised Credit Opinion	●	●	●		The update is done on the amount
@rating Credit Opinion without monitoring	●	●			
@rating Credit Opinion with monitoring	●	●		●	This product must be stopped before being cancelled
@rating Limit	●	●			
DRA without monitoring	●	●			
DRA with monitoring	●	●		●	This product must be stopped before being cancelled

2. HOW DOES IT WORK?

a. File format

The bulk products order is carried out via a file containing the list of companies on which a product will be ordered. This file must contain one line per product order / update. Each line must contain exactly 10 data fields and each data field must be separated with a semi-colon “;”.

Each line is composed of:

- 10 data fields, each separated with a “;”
- So, in total, there are 9 semi-colons

The 10 data fields are disposed on each line in the same order and in the following way:

- Country code: ISO code based on 3 letters (see the complete list in the appendices)
- EasyNumber if it is available
- Type of Legal Identifier if the EasyNumber is not known.

For example, “DnB” for the United States and Canada

- Value of Legal Identifier if the EasyNumber is not known
- Client reference
- Product to order
- Action on product: order, cancel, update or stop
- Amount: for credit limits and customised credit opinions
- Outstanding Amount
- Operation number

Please note:

- The 5th data field can contain the client reference which will be considered in CofaNet when the product is ordered.
- The 8th data field contains an amount when the credit limit or customised credit opinion is ordered or modified.
- The 10th data field contains an operation number when the credit limit is ordered, modified or deleted with an operation number different from 0 (used in case of complex decisions to indicate which action should be carried out first, second, third, etc.).

b. Data completion

Each product and each action corresponds to a code:

- Credit Limit: CRL
- Express Credit Limit: ECL
- Customised Credit Opinion: CCO
- @rating Credit Opinions without monitoring: RCO
- @rating Credit Opinions with monitoring: ROM
- @rating Limit: RLI
- DRA without monitoring: RSC
- DRA with monitoring: RSM

The possible actions on products are as follow:

- Order: C
- Cancel: D
- Update: U
- Stop: S

The product codes and action codes for each product are listed in the table below:

CONTRACT TYPE	PRODUCT NAM	PRODUCT CODE	ACTIONS AVAILABLE	AMOUNT REQUIRED
INSURANCE	@rating Limit Credit Limit	RLI CRL	C/D C/D/U	•
INFORMATION	@rating Credit Opinion without monitoring	RCO	C/D	•
	@rating Credit Opinion with monitoring	ROM	C/S/D	
	Customised Credit Opinion	CCO	C/D/U	
INFORMATION	DRA without monitoring	RSC	C/D	
	DRA with monitoring	RSM	C/S/D	

The list of data available and its status (mandatory or optional) are listed in the table below:

FIELD	MANDATORY	OPTIONAL	COMMENT
COUNTRY CODE	•		
EASY NUMBER		•	If the EasyNumber is not given, the legal ID is
LEGAL IDENTIFIER TYPE	•		Not required if EasyNumber is present
LEGAL IDENTIFIER VALUE	•		Not required if EasyNumber is present
CLIENT REFERENCE		•	
PRODUCT CODE	•		
ACTION	•		
AMOUNT		•	Mandatory for credit limits and customised credit
OUTSTANDING AMOUNT		•	Blank if no Outstanding Amount
OPERATION NUMBER		•	Only for Credit Limit, 0 if the field is not filled in

■ Example

For example, if the EasyNumber is given, then it is not necessary to give the type of the Legal Identifier and its value. However, the semi-colons are kept and the data is empty. In all cases, we must always have 9 semi-colons:

↓ ↓ ↓ ↓ ↓ ↓ ↓ ↓

FRA ; 00000012354897 ; SIREN ; 657898456 ; 41105654 ; CCO ; C ; 10000 ; 15000 ; 1

COUNTRY
CODE

EASY
Number

TYPE OF
IDENTIFIER

VALUE OF
IDENTIFIER

CUSTOMER

PRODUCT
CODE

ACTION
CODE

AMOUNT

OUTSTANDING
AMOUNT

OPERATION
NUMBER

In the above example, some information is redundant: it is not necessary to have both the EasyNumber and the Legal Identifier. The example below therefore **is correct**:

FRA;;SIREN;657898456;41105654;CCO;C;10000;15000;

↑ *No EasyNumber*

Since the EasyNumber is not given, the data between the first and the second “;” is empty. The following example uses the EasyNumber as the Company Identifier, therefore the data for the type of Legal Identifier and the data for its value are left empty:

```
FRA;00000012354897;;;41105654;CCO;C;10000;15000;
```

In all cases, we always have 9 “;”.

This last example is similar to the previous one except that the client reference is not given:

```
FRA;00000012354897;;;CCO;C;10000;15000;
```

The following example does not update the Outstanding Amount:

```
FRA;00000012354897;;;CCO;C;10000;;
```

The following example updates the Outstanding Amount to the amount “0”:

```
FRA;00000012354897;;;CCO;C;10000;0;
```

We can see with the two last examples that to leave the Outstanding Amount field empty or fill it with a “0” makes the difference. In the first case, the Outstanding Amount is not taken into account (unchanged); in the second case the Outstanding Amount will be equal to 0 for the buyer.

c. Coface reference (CRS Number) as a Legal Identifier

The Coface reference can be used as a Legal Identifier: in this case, the Legal Identifier type to include is “CRScny” (please make sure that the case of the letter is respected, “CRS” must be in uppercase and “cny” in lowercase).

The example below uses the Coface reference to order a Customised Credit Opinion of 5,000 Euros with an update of the Customer Reference and without Outstanding Amount:

```
FRA;;CRScny;100156874;B41105654;CCO;C;5000;;
```

4. VISUALISING THE BULK ORDERS RESULT

Once the file is processed, the result is shown in a table below entitled Imported Files. The last 3 columns provide some details about the import status:

Filename	Import date	Schedule date	Status	Analysis of lines				
				Pending	Correct	Error	Total	
BULK_ORDER-GUIDE...	28/10/2022	28/10/2022	Request pending	7	0	0	7	🗑️ ⬇️
BULK_ORDER-7.CSV	18/01/2022	18/01/2022	Produced	0	0	1	1	⬇️
BULK_ORDER-6.CSV	18/01/2022	18/01/2022	Produced	0	1	0	1	⬇️

- The status of the import can be successful, partially successful or failed
- The total number of lines contained in the file
- The number of lines that contained errors

Once the Bulk Orders process is over, by clicking on the file name and more specifically on Processed, you can access the details of each line taken into account during the import.

#	Company name	Identifier	Product	Action	Amount	Status	Detail status
1	AUTO BILAN TEST SA Country: France	EasyNumber: 00000061578149	Credit Limit	Add or Order	2000 EUR	Correct	

The Reject Cause column explains why the line could not be processed. The number displayed in the first column corresponds to the line in the imported file. It is possible to sort the lines in ascending or descending order by clicking on the column header of your choice. If you click on the **Error** section, you can view all the lines in error first.
