

ABOUT COFANET

Cofanet is our sophisticated web-based policy management service, offering secure direct access to Coface's comprehensive underwriting systems and allows credit limits to be managed in the most time-efficient way. It provides you with the freedom and flexibility to manage your customer and supplier portfolios, both domestic and overseas.

With Cofanet, you can:

- Apply for credit limits on new customers
- Monitor current limits
- Make modifications to, and cancellations of, existing limits on customers
- Customise a portfolio of limits by country, company, date or status to create effective management reports
- Obtain a real-time snapshot of the distribution of credit risk in your portfolio according to the existing credit limits of each trading partner
- View the historical movement of a specific limit over the last two years
- Send messages directly to our underwriting department
- Access information regarding Coface products, particularly the @rating facility
- Submit notifications

The Cofanet terms and conditions of use and Cofanet User Guides are available in the download centre on the [Client page](#) of the Coface website.
